Health Considerations:

- Social distancing is key. That means standing at least 6 feet apart from another person.
- When you are unable to social distance or stand 6 feet apart, we recommend you wear a facemask to protect you from others and others from you. Just use common sense. Besides, it is Cool to be Covered!
- We will have hand sanitizer available at all workstations, the front gate, staging, near the restrooms, escore, and registration.
- An Isolation Station will be located at the front gate for persons feeling ill. If you think you have a fever or start to feel ill, please do not go to the EMS Station. We have a special Isolation Station at the front gate. Please go there so you do not infect the EMS Station.
- The CDC recommends persons who are sick with fever or cough, elderly or at high risk, to stay at home. We do too. Please do not attend our event if this is you.
- Please take your temperature before you leave home. If you have a temperature of at least 100.4, you have a fever and should stay home.
- If you know you have had contact with someone diagnosed with having COVID-19 in the last 14 days, or you yourself have had COVID-19 in the last 30 days, please stay home.
